EDUCATION

Rensselaer Polytechnic Institute

Bachelor of Science in Computer and Systems Engineering
Minor in Cognitive Science of Artificial Intelligence

Troy, NY

Sept. 2023–May 2027

- **GPA:** 3.87
- **Clubs:** RPISEC, RPai, Quantum Computing Club
- **Relevant Coursework:** Comp. Components & Operations, Embedded Control, Eng. Design, Data Structures, Algorithms, Circuits, Comp. Architecture, Eng. Probability

WORK EXPERIENCE

Scientific Research Corporation | Radar Engineer Intern

Huntsville, AL

May 2025–Aug. 2025

- Streamlined workflow by developing software to convert file types and automating radar waveform documentation via SCPI-controlled equipment.
- Collaborated with engineers in testing and validating waveform and SDR performance using advanced signal analyzers and other lab equipment.

Advanced Technologies and Services, Inc. | Software Engineer Intern

Wyckoff, NJ

May 2024–Aug. 2024

- Introduced processes which significantly enhance production speed and yields of network testing IoT devices and developed low-level packet emulation tools.
- Contributed to an automated network traffic rerouting tool for a major North American carrier, designed for scalability to other ISPs.

PROJECTS

Automated IoT Plant Care System

- Contributed to a team project by designing the circuit, selecting hardware, programming the Arduino, and developing a remote application interface.

University of Toronto Underwater Exploration

- Designed and implemented a web API and collaborated on frontend development.

ACTIVITIES

RPISEC (Cybersecurity Club)

Troy, NY

Sept. 2023–Present

- Actively developing practical cybersecurity skills.
- Participating in hands-on CTF competitions and technical workshops.

RPai (Artificial Intelligence Club)

Troy, NY

March 2024–Present

- Exploring real-world applications of AI across industries.
- Participating in hands-on workshops to gain experience with modern AI tools and techniques.

TECHNICAL SKILLS

- **Programming** | Python, C++, C, JavaScript, TypeScript, HTML
- **Software** | LTSpice, Siemens NX, MATLAB, Git, Angular, FastAPI
- **Security Clearance** | Secret clearance
